FRONT-END DEVELOPER

- Engineering professional with Front End Developer experience, and certifications in Front-End, React, and Full Stack Web Development.
- Demonstrates strong collaboration skills within cross-functional teams, leveraging effective communication and attention to detail to deliver solutions in Agile/Scrum methodologies.
- Skilled in cross-browser compatibility and performance optimization techniques, providing seamless user experiences, maximum application pace, and responsiveness across platforms.
- Proficient in debugging and troubleshooting, leveraging problem-solving skills to promptly identify and resolve issues, delivering efficient improvements.
- Committed to continuously learning current trends and advancements in emerging technologies with a track record of delivering high-quality market-leading solutions.

CORE COMPETENCES

Languages: HTML, CSS, Javascript, Typescript
Libraries and Frameworks: Sass, Less, Styled-Components, CSS Modules, Bootstrap, Tailwind, React, React-Router, React-Query, Redux-Toolkit, Firebase, Formik, Yup, Material UI, Ant Design, React-Testing Library, Jest, Node, Express, EJS, MongoDB, Mongoose, Playwright
Tools: NPM, Webpack, Babel, Parcel, Vite, Adobe Photoshop, Figma, Zeplin, Postman, Swagger, Axios, Netlify, Render
Version Control and Collaboration: GitHub, GitLab, Azure DevOps, Jira, Open Project

WORK EXPERIENCE

Front-End Developer – Openspace Services Pvt Ltd   2022 – 2023

- Facilitated the revamp of an admin portal interface for a client with serving 10,000+ B2C/B2B customers, managing brand quality consistency and optimizing code.
- Streamlined development process and workflow for future projects by developing and maintaining React CRM portal scaffold using Vite, React, React-ecosystem, and Redux.
- Enhanced user accessibility, creating functional features and user-friendly web pages by implementing UI/UX designs using HTML, CSS, JavaScript, and React.
- Achieved consistency across different web browsers, devices, and screen sizes with a mobile-first approach using Media Queries, Bootstrap, Tailwind, Babel, and rigorous testing.
- Ensured high user integrity and frontend application security by integrating Microsoft Azure Active Directory SSO, JWT authentications, conditional routing, and comprehensive error handling.
- Improved overall application and user experiences by integrating RESTful APIs, utilizing Fetch API, Axios, Redux-Thunk, and React-Query, in collaboration with Back-End Developers.

- Identified and resolved performance issues through meticulous manual and automated testing using React-Testing Library and Jest.
- Examined end-to-end testing and documentation of all frontend features working together with QA team and Business Analysts.
